The broader team that contributes to delivering Watson for the "Stage", to compete in Jeopardy Games is growing and changing rapidly.

Our Apologies if this is not up to date.

*NOT full-time Equivalents. Names listed if contributed sometime to that part of project

Premise:

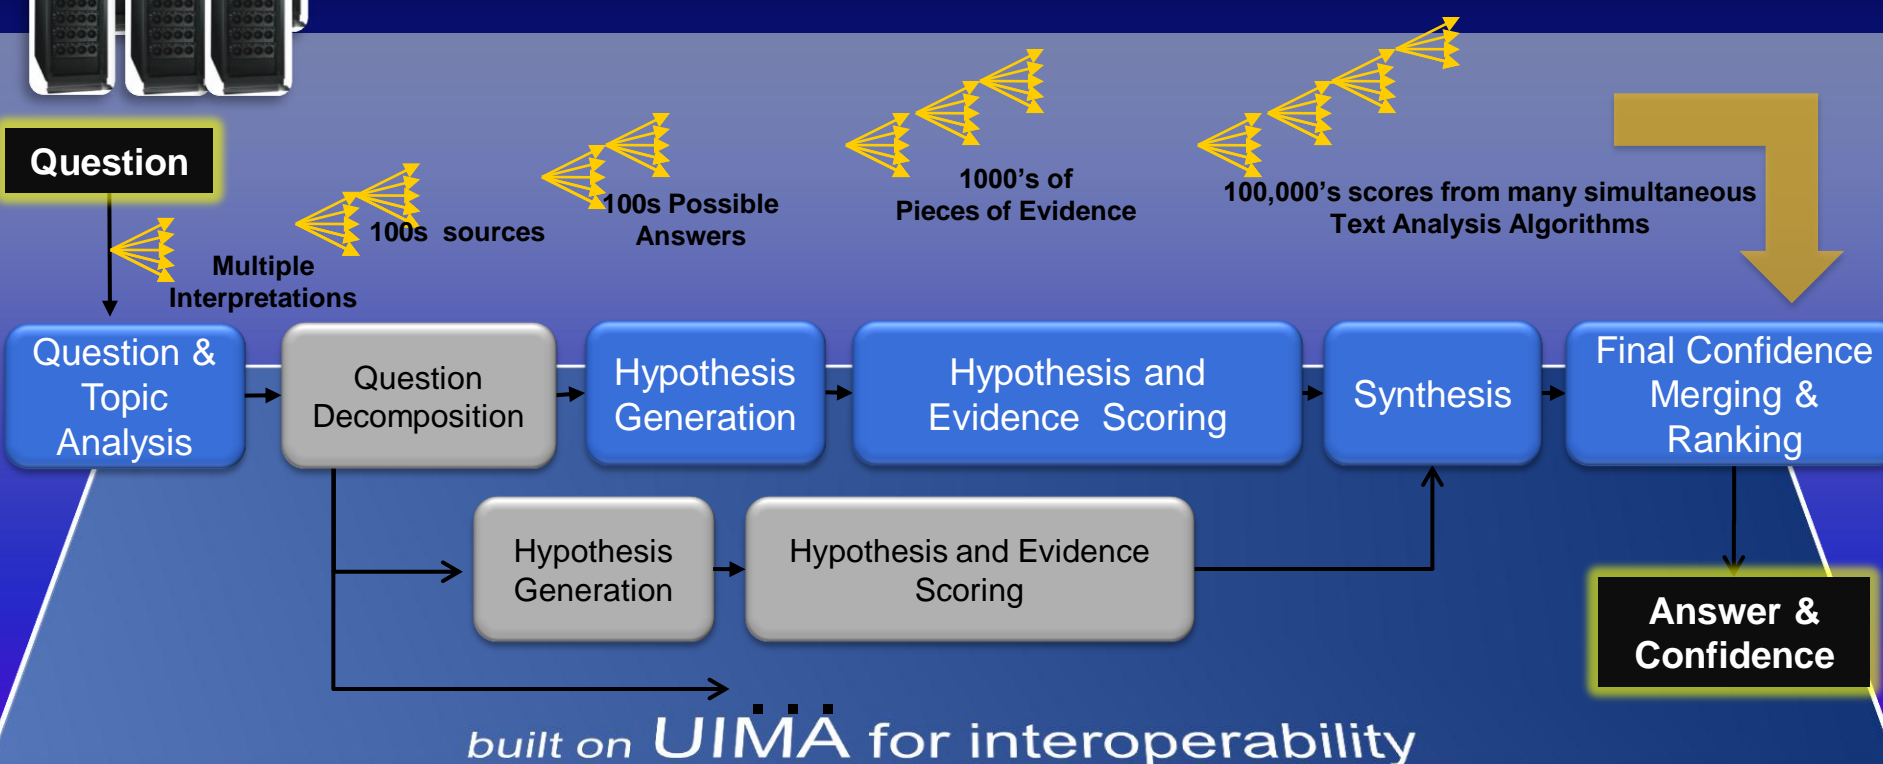

80% of Human Knowledge *is in natural language text*

Research Mission:

How can we exploit this knowledge to solve problems?

One Jeopardy! question can take **2 hours on a single 2.6Ghz Core**
Optimized & Scaled out on 3000-Core IBM HPC using UIMA-AS,
Watson is answering in ~2 seconds.

built on **UIMA-AS** for scale-out and speed

Watson – a Workload Optimized System

- 90 x IBM Power 750¹ servers
- 2880 POWER7 cores
- POWER7 3.55 GHz chip
- 500 GB per sec on-chip bandwidth
- 10 Gb Ethernet network
- 15 Terabytes of memory
- 20 Terabytes of disk, clustered
- Can operate at 80 Teraflops
- Runs IBM DeepQA software
- Scales out with and searches vast amounts of unstructured information with UIMA & Hadoop open source components
- Linux provides a scalable, open platform, optimized to exploit POWER7 performance
- 10 racks include servers, networking, shared disk system, cluster controllers

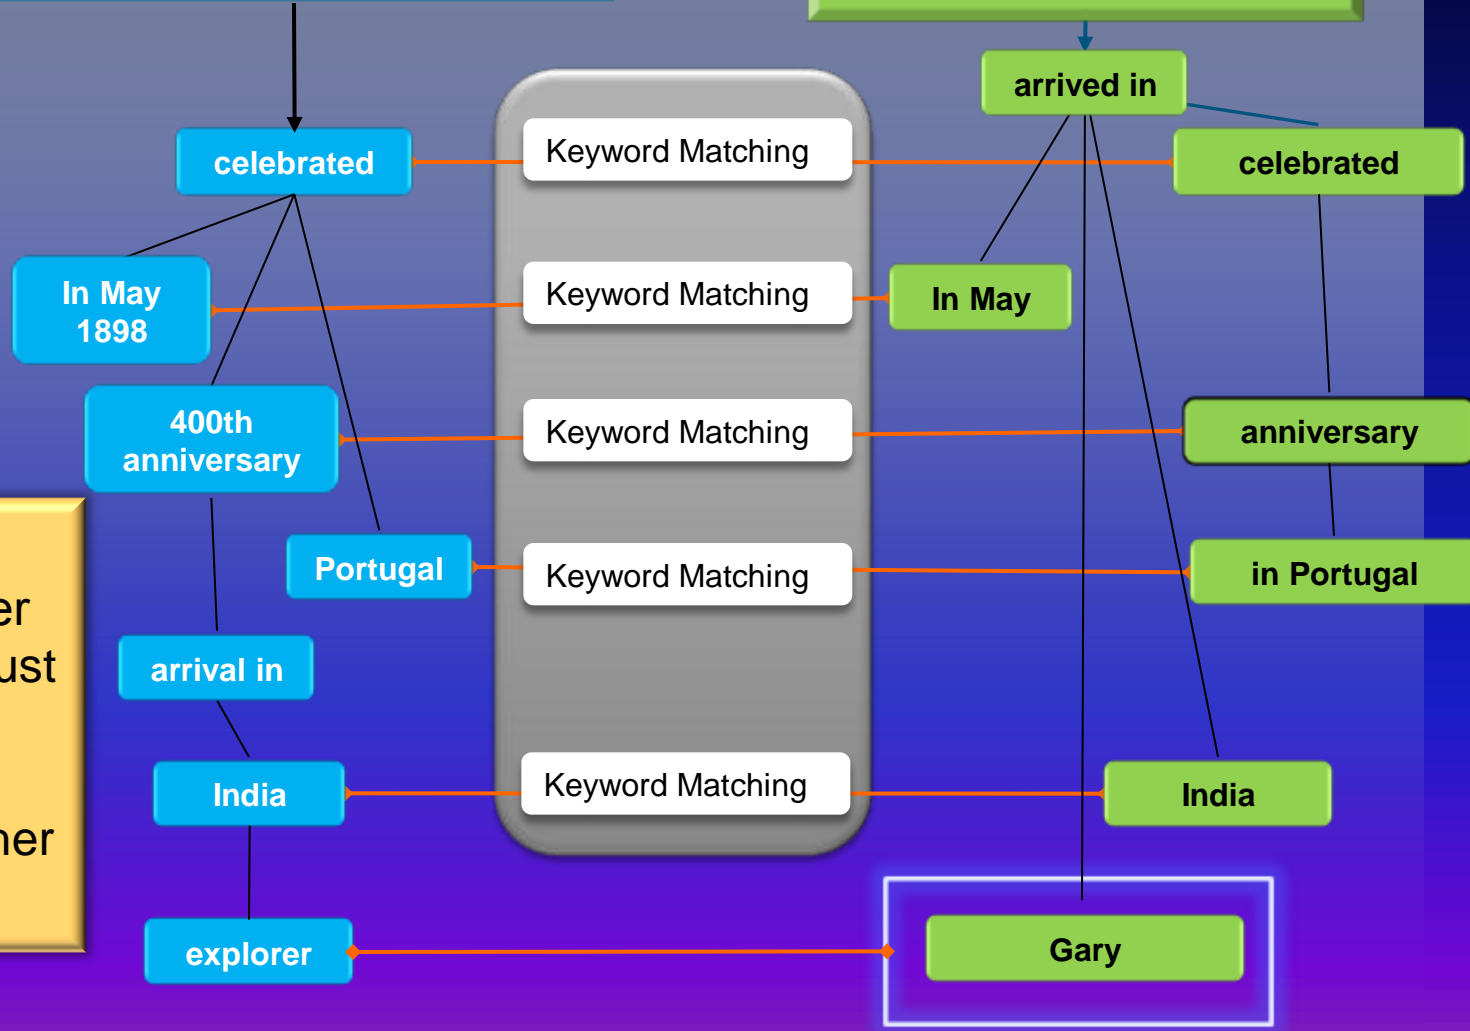

¹ Note that the Power 750 featuring POWER7 is a commercially available server that runs AIX, IBM i and Linux and has been in market since Feb 2010

Different Types of Evidence: Keyword Evidence

In May 1898 Portugal celebrated the 400th anniversary of this explorer's arrival in India.

In May, Gary arrived in India after he celebrated his anniversary in Portugal.

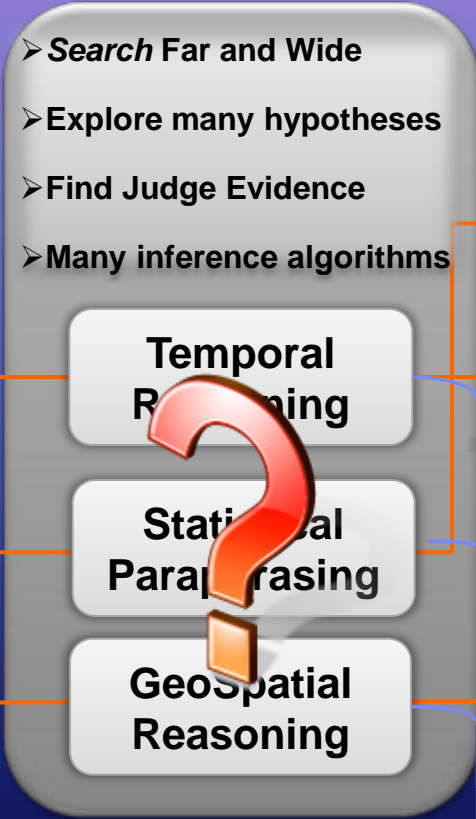

Evidence suggests "Gary" is the answer BUT the system must learn that keyword matching may be weak relative to other types of evidence

Different Types of Evidence: Hybridization

In May 1898 Portugal celebrated the 400th anniversary of this explorer's arrival in India.

On the 27th of May 1498, Vasco da Gama landed in Kappad Beach

Vasco da Gama

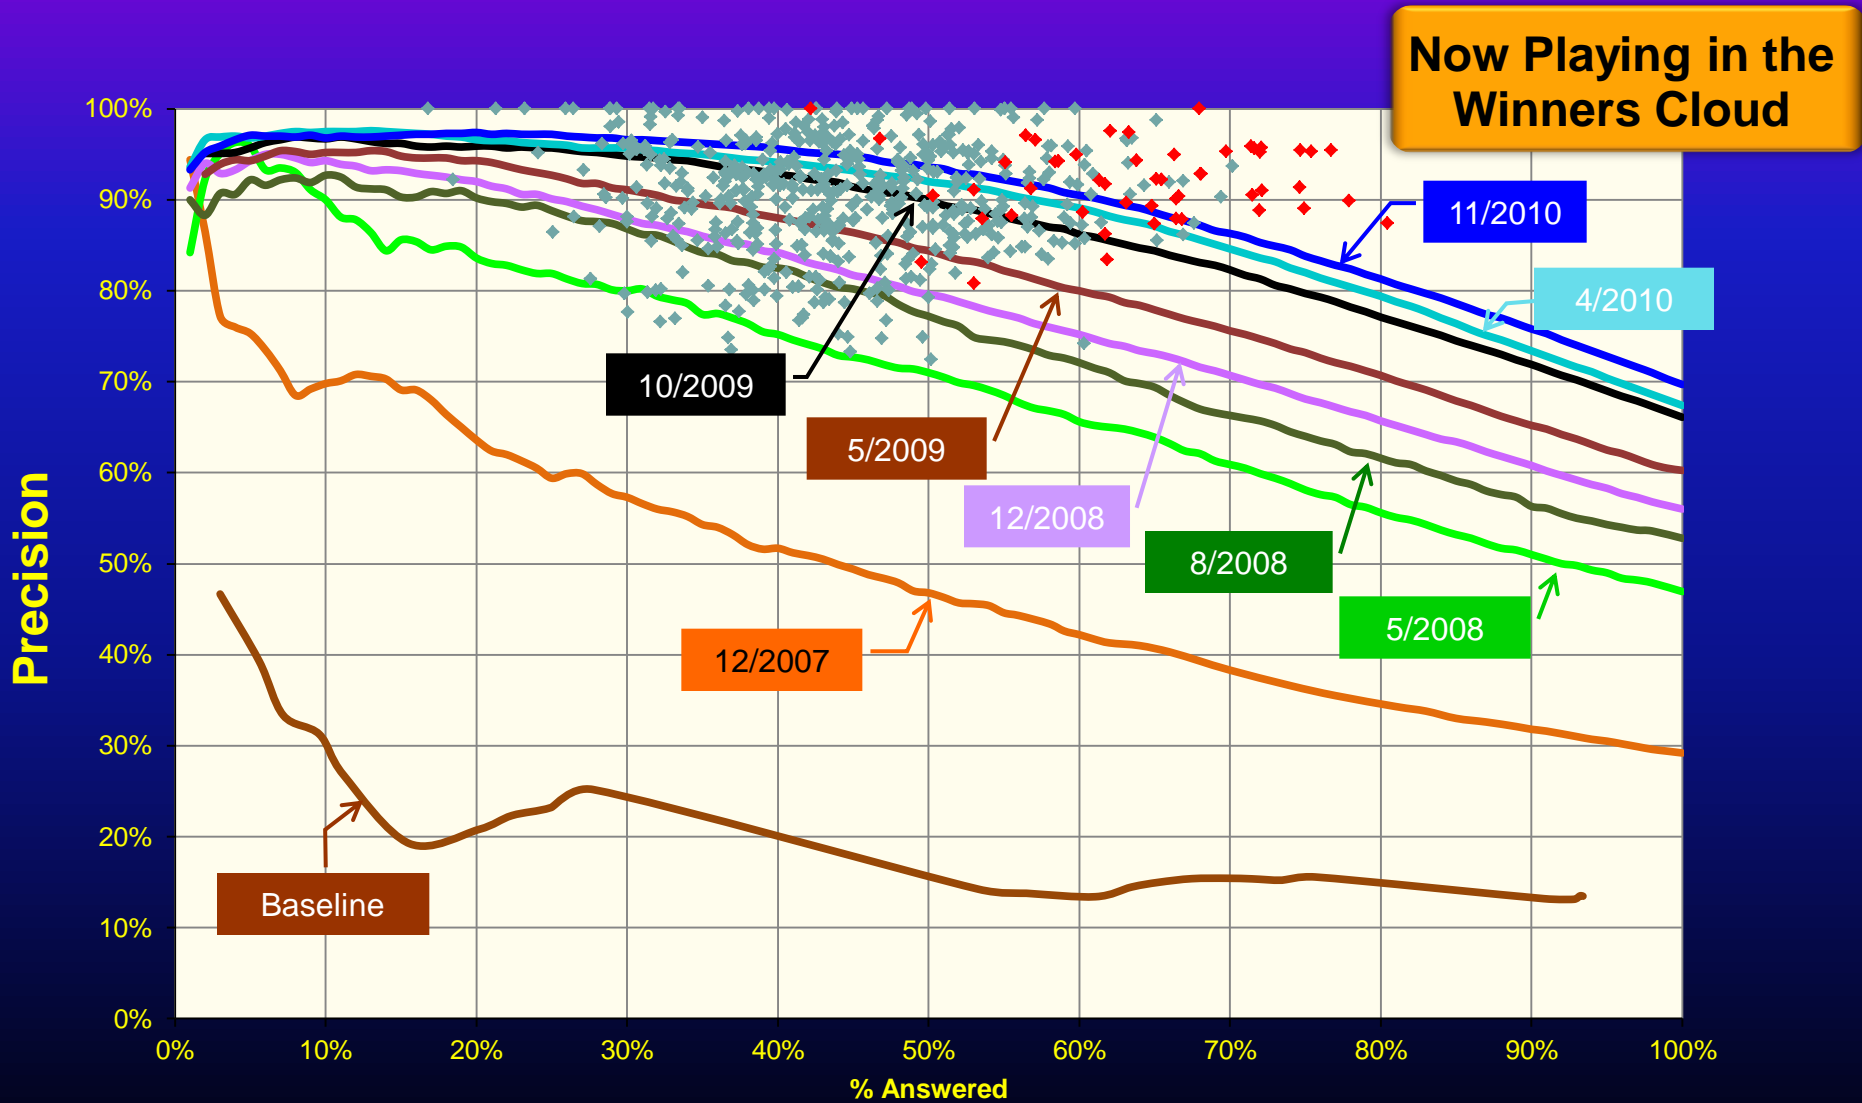

Stronger evidence can be much harder to find and score.

The evidence is still not 100% certain.

How Tasty Was My Little Frenchman

From Wikipedia, the free encyclopedia

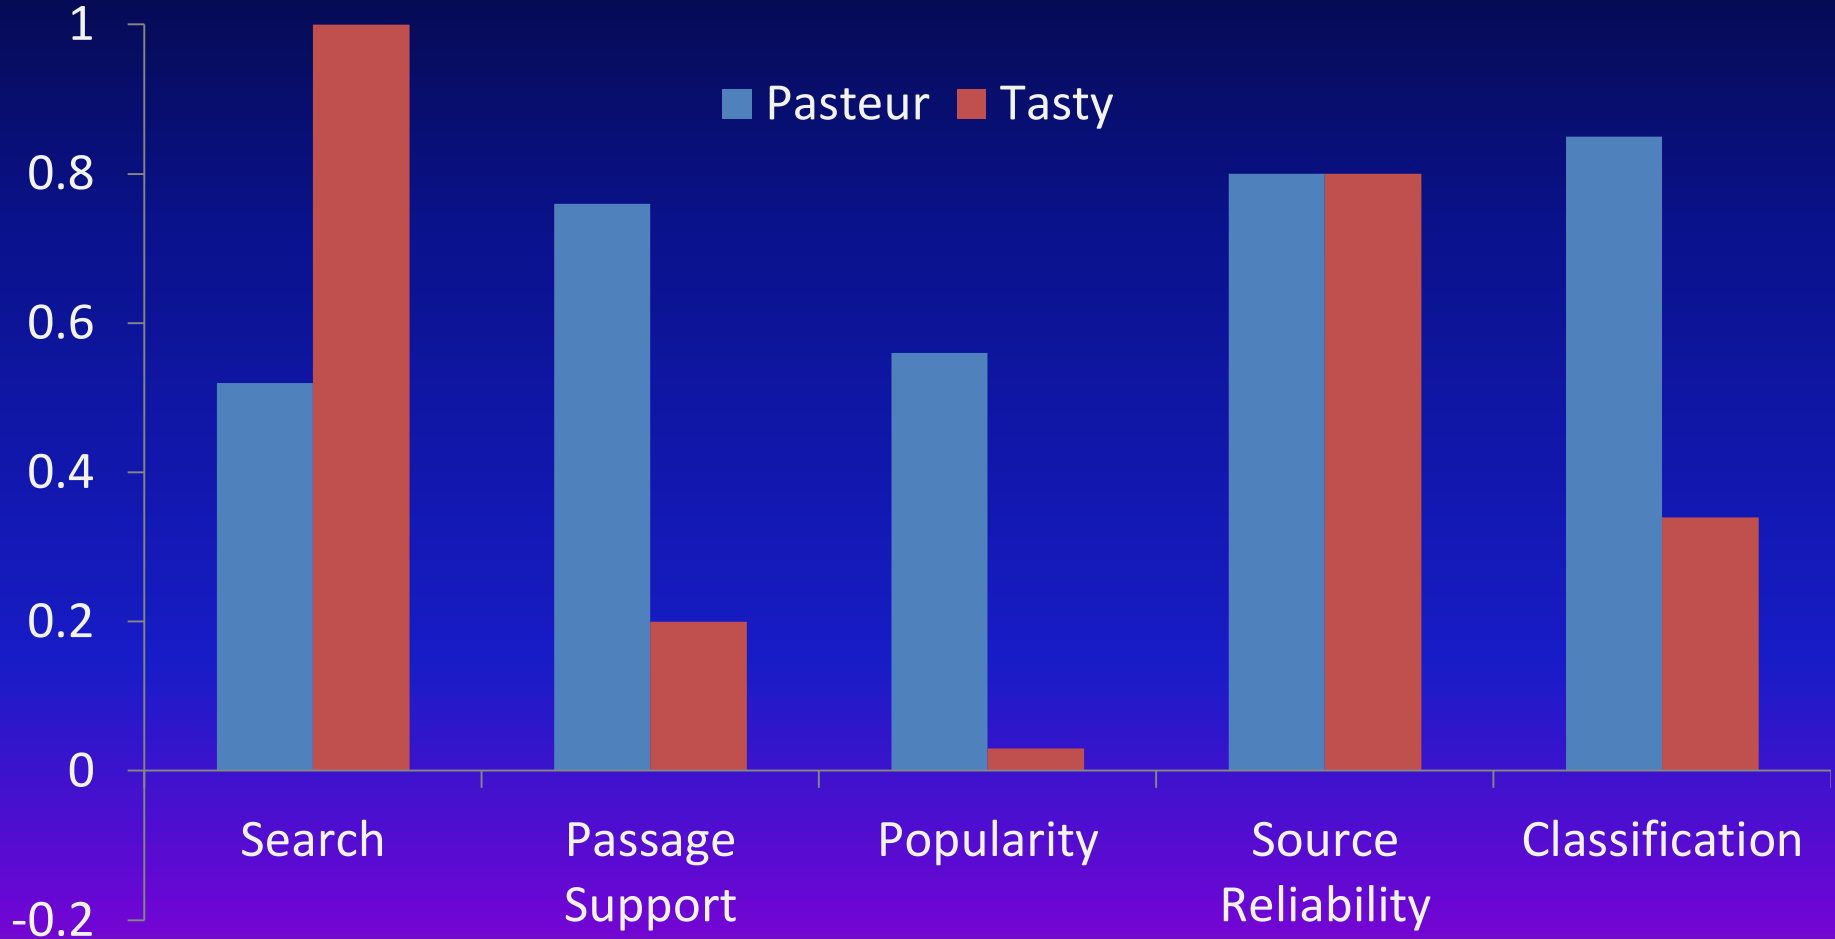

How Tasty Was My Little Frenchman (Portuguese: *Como Era Gostoso o Meu Francês*) is a Brazilian black comedy directed by Nelson Pereira dos Santos released in 1971.

Almost all of the dialogue in the film was written in the [Tupi](#) language. The actors and actresses who portrayed the Tupinambas wore historically correct attire resulting in a

Solution: Cap values to max seen in training

Clue: This Frenchman was "The Father of Bacteriology".
