

Internet of Everything and Future of Interconnected Electronics

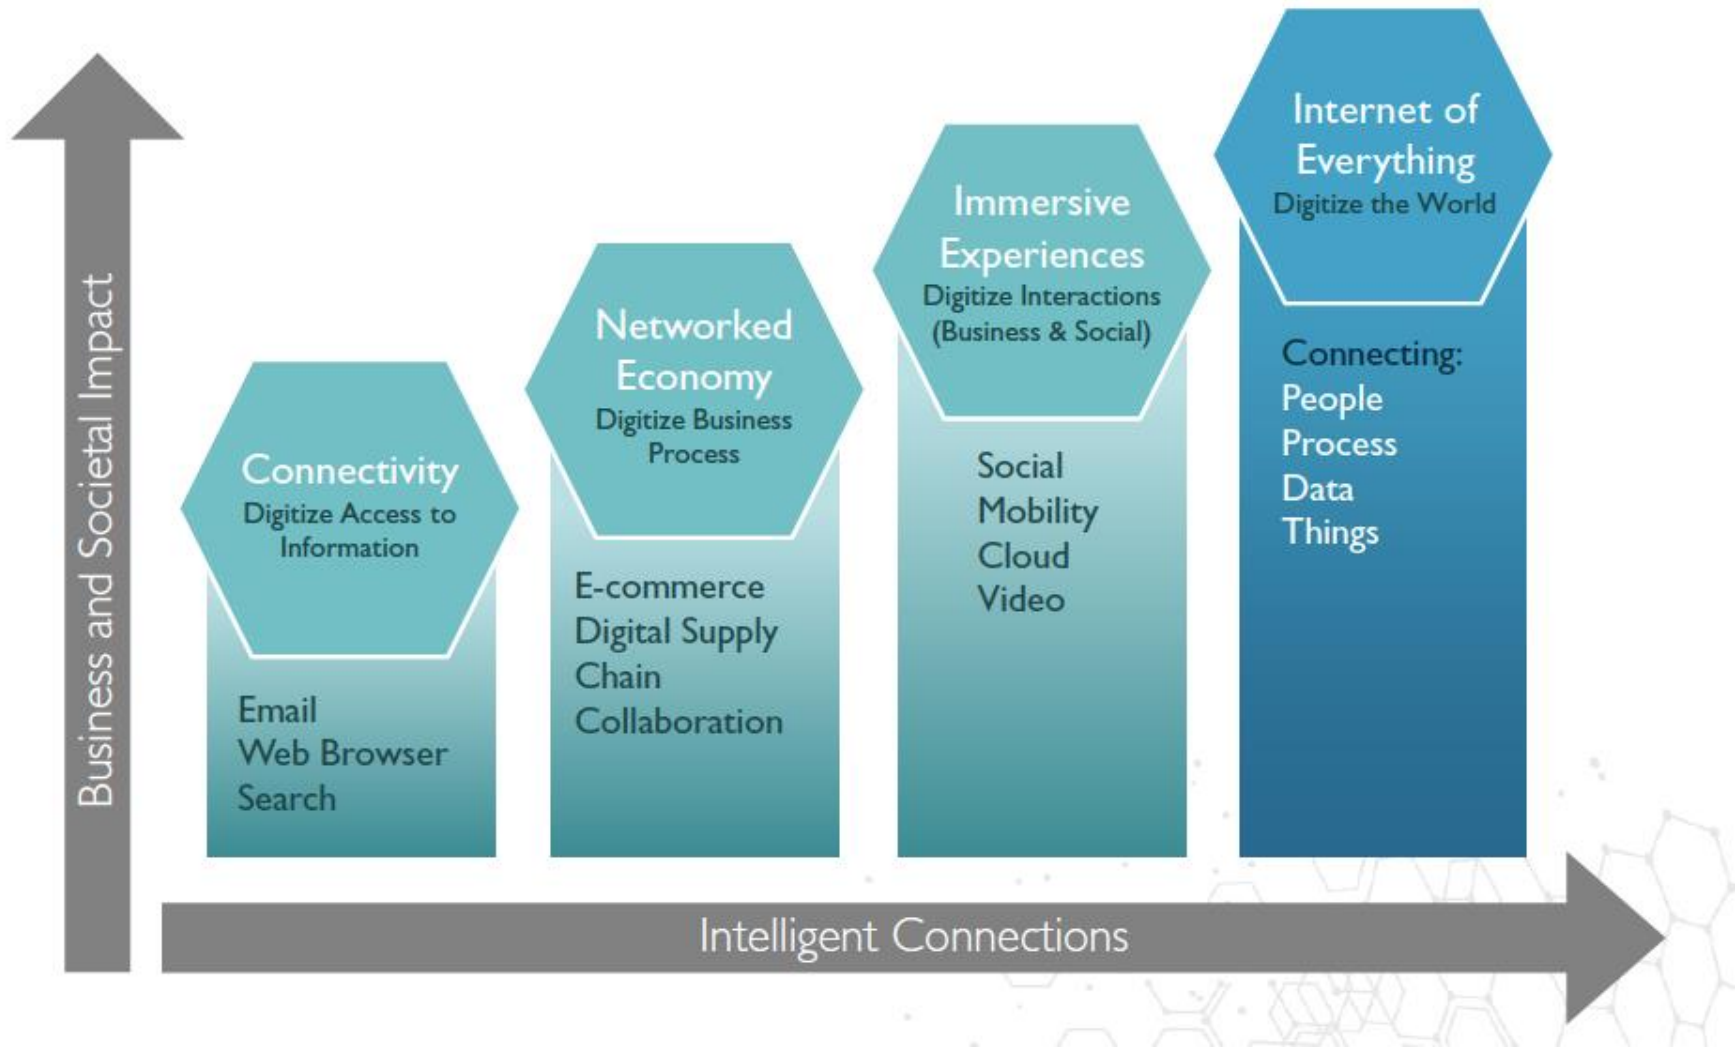

ECTC Plenary Session

Li Li
Cisco Systems, Inc.

Evolution of Internet

Internet of Everything (IoE) – Next Big Thing

...By connecting People, Process, Data and Things

People

Connecting people in more relevant, valuable ways

Process

Delivering the right information to the right person (or machine) at the right time

Data

Leveraging data into more useful information for decision-making

Things

Physical devices and objects connected to the Internet and each other for intelligent decision-making; often called Internet of Things (IoT)
